---	---

Dear Sir/madam,

Sub: Fire incident at Syngene

This is to inform that there was a fire last night within one of our laboratory building (Building-S2) at Syngene, which has since been brought under control. There has been no loss of life or any injury reported. The S2 facility comprises laboratory and office space, representing approximately 10% of the total developed laboratory and office space on the campus. We are in the process of assessing the extent of damage to the building and equipment and also implementing our business continuity plan to minimize impact on operations. Our 'Industrial All Risk' policy will help us minimize the financial impact on account of damage to assets and loss of profits. Other facilities are not impacted and continue to operate as normal.

This is for your information and records.

Thanking you.

Yours faithfully

For Syngene International Limited

Mayank Verma
