

For Immediate Release

Fire Incident at Syngene Facility

No Injuries or Loss of Life; BCP activated to minimize impact on Operations

Bangalore, 13th December, 2016

Syngene International Ltd. informed that there was a fire incident yesterday evening at one of its research facilities at Biocon Park in Bangalore. This triggered the fire alarm and Syngene's Emergency Response Team (ERT) immediately got into action to evacuate the building. The fire department was called in and the fire was brought under control. There was no injury or loss of life due to this incident.

This research facility, including office and lab spaces, makes up approximately 10% of Syngene's total infrastructure at Biocon Park. The cause of the fire and the extent of damage to this lab facility is being assessed.

The company has implemented its Business Continuity Plan (BCP) to minimize impact on operations. Further, Syngene's Industrial All Risk Insurance Policy will help minimize the financial impact on account of damage to assets and loss of profits.

The company further added that all its other facilities within the same campus were unaffected due to this incident and continue to operate normally.

About Syngene

Syngene International Limited, (**BSE code: 539268, NSE Id: SYNGENE, ISIN Id: INE398R01022**) is one of Asia's largest Contract Research Organizations. It provides discovery and developmental services for new molecular entities across multiple platforms including Small Molecules, Large Molecules, Antibody-Drug Conjugates and Oligonucleotides. These services are aimed towards bringing novel molecules to the market by supporting the R&D efforts of organizations across diverse sectors like pharma, biotechnology, nutrition and animal health. Syngene offers an integrated platform for R&D focussed organizations to optimize their R&D investments and develop their novel molecules with a distinctive cost advantage. In FY2016, Syngene serviced 256 clients including 8 of the top 10 global pharma companies. For more details, visit: www.syngeneintl.com
